

A plant supplement enriched with natural enzymes for stronger and healthy plants.

KEY BENEFITS

- Improves plant vigor and health.
- Improves nutrition uptake of plants.
- Improves crop yield and produce quality.
- It enhances photosynthetic and metabolic activities in plant.
- Stimulates beneficial soil microbial activity.

USAGE GUIDELINES

DRENCHING

Calculate the volume of water required for drenching to the number of plants in the desired area. Add the recommended dose of formulation in the water and drench it in root zone.

FERTIGATION

It is completely soluble in water giving advantage for easy and labor saving application through drip irrigation system. Mix recommended dose of formulation in ample amount of water and apply to the desired area.

IMPROVES SOIL HEALTH & CROP YIELD

Soil Revive is unique formulation of plant growth promoting enzymes mixed with portion of potassium humate.

It is produced using Ultra filtration Technology of the fermented broth.

FORMULATION: Liquid
Shelf life- 18 months
PACKING: 2 Kg

SPECIAL CARE SHOULD BE TAKEN WHEN TANK MIXING

- Use appropriate dosages of formulation as per recommendation.
- Partially fill the spray tank with clean water and then add the specific amount of Bio-product to the tank as required. Add the remaining water Mix thoroughly.
- DO NOT let mixture stand overnight.
- DO NOT mix with copper based fungicides, bactericides, concentrated acids such as sulfuric acid, solvents, oxidizing agents.
- Apply in the early morning OR evening creates conditions favorable for germination of spores giving better results.
