

## Evaluation of Incryl in Irrigated Rice During Rabi Season

Paddy crop

Institute Name	Indian Institute of Rice Research
Location	Rajendranagar, Hyderabad
Crop	Paddy
Variety	Varadhan
Product	Incryl
Method of Application	Soil application
Effective treatment with dose	Incryl 3 kg per acre at 30 days after transplanting
Benefits	<ul style="list-style-type: none"> <li>Enhances plant growth and yield</li> <li>Stimulates root development and nutrient uptake</li> <li>Provides vital elements and improves defense system of plants</li> </ul>

Performance of Incryl over control (%)

### RESULTS

Parameters	1000 grain weight (g)	Grains per panicle	Grain Yield (kg/ha)
Effective treatment	22.7	219	4176
Control	20.7	166	3643
