

BIOLOGICAL SOLUTION FOR CROP GROWTH & YIELD BOOSTER

KEY BENEFITS

- Improves germination
- Improves soil quality & microbial activity
- Enhances secondary & tertiary root growth
- Vigorous plant growth and increased foliage
- Increases flowering, grains/fruits size and weight
- Enhances resistance against environmental stress, pest and disease
- Enhances yield and better quality of the farm produce

USAGE GUIDELINES

BROADCASTING

Mix the recommended quantity of bio-products in 50 kg well decomposed FYM/Compost and broad cast in the field before last inter-culturing operations before sowing

INCRYL® granules are advanced biotechnology based product with unique and exceptional properties that improves the soil fertility, plant growth and farm yield.

INCRYL® gives the optimum nutrients boost to all crops for growth, nutrients uptakes, flowering and fruits developments resulting better yield performances.

Formulation: Granular powder

Shelf life: 2 years

Packing: 3 Kg

SPECIAL CARE SHOULD BE TAKEN WHEN TANK MIXING

- Use appropriate dosages of formulation as per recommendation.
- Partially fill the spray tank with clean water and then add the specific amount of Bio-product to the tank as required. Add the remaining water Mix thoroughly.
- DO NOT let mixture stand overnight.
- DO NOT mix with copper based fungicides, bactericides, concentrated acids such as sulfuric acid, solvents, oxidizing agents.
- Apply in the early morning OR evening creates conditions favorable for germination of spores giving better results.
