

Evaluation of Bio-Efficacy Studies of **Incryl Ultra** on Improvement in **Okra** Growth, Nutrient Uptake and Yield by Soil Application

Okra crop

Institute Name	Mahatma Phule Krishi Vidyapeeth
Location	Rahuri Maharashtra
Crop	Okra
Product	Incryl Ultra
Variety	Janhavi (VNR Seeds)
Method of Application	Foliar Application
Effective treatment with dose	Incyl Ultra @1 g/litre at sowing and 1g/litre at fruit setting stage
Benefits	<ul style="list-style-type: none"> •Boosts plant growth, flowering, fruiting and yield. •Provides vital elements for plant growth and improves the defense system of plants.

Performance of Incryl ultra over control (%)

RESULTS

Parameters	Flower Initiation	No. of branches /plant	Number of flowers/ plant	No. of fruits /plant	Fruit yield (t/ha)
Effective treatment	40.2	11.45	22.5	18.67	6.11
Control	46.2	10.3	14.2	16.33	4.31
