

Groundnut crop

Institute Name	Lovely Professional University
Location	Punjab
Crop	Groundnut
Variety	TG 37A
Product	Incryl [®]
Method of Application	Soil application
Effective treatment with dose	Recommended dose of fertilizers+ Incryl[®]-1st application at seedling emergence @ 6 kg/acre and 2nd application at 70 DAS@ 6 kg/acre
Benefits	<ul style="list-style-type: none"> •Enhances plant growth and yield •Stimulates root development and nutrient uptake •Provides vital elements and improves defense system of plants

Performance of Incryl[®] over control (%)

RESULTS

Parameters	Plant height (cm)	No. of leaves/plant	Plant spread (cm)	No. of pods/plant	Kernel yield (q/ha)	Dry pod yield (q/ha)
Effective treatment	36.19	55.78	45.9	24.3	20.17	29.17
Control	30.05	42.62	37.2	20.16	14.29	22.46
