

## HEALTHY GROWTH OF PLANT ROOTS

### KEY BENEFITS

- Improve plant immunity to fight against various soil nematodes.
- Improve plant white root development to overcome from nematode attack.
- Improve plant vigor and growth resulting better yield Performances.
- Very effective even in hard weather conditions.
- Safe for the environment and farmers.

Improve the plant white root development and help to protect from various soil borne nematodes.

Formulation: Powder  
(Soluble Free Flowing Powder)  
Shelf Life: 2 Years  
Packing: 200 grams

### USAGE GUIDELINES

#### FERTIGATION

It is completely soluble in water giving advantages for easy and labor saving application through drip irrigation system. Mix recommended dose of formulation in ample amount of water and apply to the desired area.

#### DRENCHING

Calculate the volume of water required for drenching to the number of plants in the desired area. Add the recommended dose of formulation in the water and drench it into the root zone.

#### SEED TREATMENT

Can be applied as water based slurry to cover seeds uniformly.

#### SPECIAL CARE SHOULD BE TAKEN WHEN TANK MIXING

- Use appropriate dosages of formulation as per recommendation.
- Partially fill the spray tank with clean water and then add the specific amount of Bio-product to the tank as required. Add the remaining water. Mix thoroughly.
- DO NOT let mixture stand overnight.
- Do NOT mix with copper based fungicides, bactericides, concentrated acids such as sulfuric acid, solvents, oxidizing agents.
- Apply in the early morning OR evening creates conditions favorable for germination of spores giving better results.
