

Evaluation of Bio-Efficacy Studies of **Incryl Ultra™** on Improvement in **Okra** Growth, Nutrient Uptake and Yield by Soil Application

Okra crop

Institute Name	Mahatma Phule Krishi Vidyapeeth
Location	Rahuri, Maharashtra
Crop	Okra
Product	Incryl Ultra™
Variety	Janhavi (VNR Seeds)
Method of Application	Foliar Application
Effective treatment with dose	Incryl Ultra™ @1 g/litre at sowing and 1g/litre at fruit setting stage
Benefits	<ul style="list-style-type: none"> •Boosts plant growth, flowering, fruiting and yield. •Provides vital elements for plant growth and improves the defense system of plants.

Performance of Incryl Ultra™ over control (%)

RESULTS

Parameters	Flower Initiation	No. of branches /plant	Number of flowers /plant	No. of fruits /plant	Fruit yield (t/ha)
Effective treatment	40.2	11.45	22.5	18.67	6.11
Control	46.2	10.3	14.2	16.33	4.31
