

Bio-stimulant For Healthy Growth and quality yield

PG Kelp Foliar is uniquely formulated bio-stimulant for healthy growth and quality yield.
PG Kelp Foliar has consistent as well as superior performance across crops.

KEY BENEFITS

- Especially designed for fruits & vegetables
- Stimulates crop metabolic process e.g. Photosynthesis, protein and plant hormones synthesis
- Strengthens crop resistance to biotic and abiotic stress through SAR and ISR
- Induces crop vigour, flowers and fruit growth.
- Improves the performance of Agri inputs like insecticides, fungicides, nutrient.
- Improves the crop yield and quality.

Formulation	Liquid (water soluble)
Shelf life	2 years
Packing	500g, 1000g

USAGE GUIDELINES

FOLIAR APPLICATIONS

PG Kelp Foliar is used as foliar spray to improve plant growth development. Apply in sufficient water to provide thorough coverage. Frequency of foliar spray depends on the crop stage or as needed.

SPECIAL CARE SHOULD BE TAKEN WHEN TANK MIXING

- Use appropriate dosages of formulation as per recommendation.
- Partially fill the spray tank with clean water and then add the specific amount of Bio-product to the tank. Add the remaining water and mix THOROUGHLY.
- DO NOT LET MIXTURE STAND OVERNIGHT.
- DO NOT mix with copper-based fungicides, bactericides, concentrated acids such as sulfuric acid, solvents and oxidizing agents.
- Application in the early morning OR evening creates conditions favourable for germination of spores, giving better results.
