

A CONTACT AND SYSTEMIC BIOLOGICAL DISEASE PREVENTOR

Wilt RMD kit is uniquely formulated bio-fungicide which prevents soil borne fungal diseases and also boosts the plants resistance against diseases.

It helps in healthy growth and development of crops.

KEY BENEFITS

- Broad spectrum bio-fungicide
- Helps to prevent soil borne diseases
- Activates plant defense system against fungal pathogens
- Suppress the growth and development of pathogenic fungus
- Safe for farmers and environment

Formulation	Powder (Soluble Free Flowing Powder)
Shelf life	2 years
Packing	1 kg

USAGE GUIDELINES

DRENCHING

Calculate the volume of water required for drenching to the number of plants in the desired area. Add the recommended dose of formulation in the water and drench it in the root zone of crops.

FERTIGATION

It is completely soluble in water giving an advantage for easy and labor-saving application through drip irrigation systems. Mix the recommended dose of formulation in the required amount of water and apply it to the desired area.

SPECIAL CARE SHOULD BE TAKEN WHEN TANK MIXING

- Use appropriate dosages of formulation as per recommendation.
- Partially fill the spray tank with clean water and then add the specific amount of Bio-product to the tank. Add the remaining water and mix THOROUGHLY.
- DO NOT LET MIXTURE STAND OVERNIGHT.
- DO NOT mix with copper-based fungicides, bactericides, concentrated acids such as sulfuric acid, solvents and oxidizing agents.
- Application in the early morning OR evening creates conditions favourable for germination of spores, giving better results.
