

## MYCORRHIZAL CONSORTIA WITH GROWTH PROMOTER AND NATURAL MINERALS

### KEY BENEFITS

Improve plants various nutrients uptake P,Zn, Cu, N and water from the soil.

- Accelerates rooting and nutrients uptake
- Improve plant vigor and growth
- Improve soil organic contents and provide instant nutrients and amino acid to plants
- Enhances flowering fruiting and yields
- Reduces soil erosion

### USAGE GUIDELINES

#### BROADCASTING

Mix the recommended quantity of bio-products in 50 kg well decomposed FYM / Compost and broadcast in the field before last inter-culturing operations before sowing

### • For vigorous and Healthy plant Growth

Mycorrhizal Fungi (MF) colonize the plant's root system and develop a symbiotic associate with plant roots and draw nutrients and water from the soil which the root system would not be able to access otherwise.

Formulation : Powder  
(Insoluble Granules)  
Shelf life- 2 years  
Packing : 4 Kg

### SPECIAL CARE SHOULD BE TAKEN WHEN TANK MIXING

- Use appropriate dosages of formulation as per recommendation.
- Partially fill the spray tank with clean water and then add the specific amount of Bio-product to the tank. Add the remaining water and mix THOROUGHLY.
- DO NOT LET MIXTURE STAND OVERNIGHT.
- DO NOT mix with copper-based fungicides, bactericides, concentrated acids such as sulfuric acid, solvents and oxidizing agents.
- Application in the early morning OR evening creates conditions favourable for germination of spores, giving better results.
